

INTERNATIONAL GLOBAL SHORTWAVE CLUB

August 1, 2024

Dear Global Shortwave Club member:

President

William G Davis Jr

Contact Us!

Don't forget to call or write to us at least once a month. We welcome more if you have time!

Phone Numbers

315-775-8790

Or

410-569-8873

Address

International Christian
Temple Church®
Shortwave Club
3301 Emmorton Rd
Abingdon, Md 21009
U.S.A.

Visit our website!

www.ictchurch.org

We have a whole area dedicated to our International Global Shortwave Club members. You can also find our current frequencies and times!

Current Radio Schedule

WWCR

Worldwide Christian
Radio

Monday through Friday

5.890 - 0300 UT

13.845 - 1800 UT

Saturday

4.840 - 0200 UT

12.160 - 1700 UT

Sunday

4.840 - 0200 UT

9.350 - 2100 UT

Picking up where I left off - the early experimenters grappled with discovering how to generate the frequency, receive a strong signal, and transmit with a large amount of power. These were the days before integrated circuits and even transistors. Imagine the value of audion, invented by Lee DeForest, which could detect and generate radio signals. DeForest built several fortunes from this invention.

Edwin Armstrong, perhaps the most significant inventor in radio history, invented the regenerative receiver, the vacuum tube oscillator, the superheterodyne receiver, FM (frequency modulation) broadcasting, and multiplex FM transmissions. Armstrong, DeForest, and several others participated in lawsuits that stretched throughout most of the first half of the 20th century. The strain of the legal battle was so great that it killed Armstrong: he committed suicide on January 31, 1954. The "Empire of the Air" by Tom Lewis portrays these stories and many others from the early days of broadcasting in much greater detail.

Good listening!

William Davis
